

**IN THE DRAWINGS:**

The attached sheet of drawings includes a change to Fig. 14 to correct the Japanese character therein with an English label. This sheet replaces the original sheet containing this drawing.

Attachment: Replacement Sheet

Annotated Sheet Showing Change

## REMARKS

In the Notice to File Corrected Application Papers, the PTO notes that Fig. 14 contains a foreign language and is requiring replacement drawings. Accordingly, Applicants are amending Fig. 14 to replace the foreign language character with the appropriate English label. No new matter is being added as this amendment is supported by, for example, the Brief Description of the Drawings for Fig. 14 which states that the figure shows the relation between gate voltage (V in the figure) and drain current (the Japanese character in the figure now being amended to recite the label "current").

Therefore, the objection to the drawings has been overcome, and it is respectfully requested that the objection be withdrawn.

This amendment is being filed prior to the payment of the issue fee.

Therefore, it is respectfully requested that this amendment be entered and allowed.

If any fee should be due for this amendment, please charge our Deposit Account 50/1039.

Favorable consideration is earnestly solicited.

Respectfully submitted,

Date: November 19, 2009
